

We also have Zoom meetings available in your local area!

Many of our local Face-to-Face Meetings have transitioned to Zoom due to the COVID-19 pandemic. Local online meetings do not require any prior registration and tend to be smaller in size.

You may search for meetings by your city/state or zip code [HERE](#)

A meeting which has transitioned online will say “*** MOVED ONLINE, SEE NOTES***” next to the city and state. After pressing “click for meeting details,” the online meeting information will be found in the area called “Important Meeting Information”.

We also want to offer that our “General Meetings” (no verifications provided) will be smaller meeting rooms as well.

Thank you for continuing your exploration of SMART Recovery. We are here to assist you any way that we are able. Please reach out to the National Office if you need any clarification or directions to additional resources.
